From the Headmaster's Desk

I want to take the opportunity in my last "From the Headmaster's Desk" comments to convey the deep feelings of appreciation which Carolyn and I have for all the TLS "family" has meant to ours. The many expressions of appreciation we have received enable us to leave TLS with the realization that we have had a positive effect on the development of the new school we joined in 1960.

Our special thanks are extended to Anne and Jim Gay for all of their efforts associated with the lovely reception and garden party at their home on June 7. The splendid help of so many other wonderful people who provided food, tables and other needed items for the party meant a great deal to us also. Such cooperative efforts have become the norm when events associated with with TLS are held.

It was wonderful to have an opportunity to see so many of our friends at the reception and have a chance to be brought up-to-date on what they are now doing. We will always look back on the reception as one of the highlights of our years in Lexington.

I want to thank all of the alumni and friends who participated in the efforts initiated by some members of our Class of 1980 to collect funds to underwrite the cost of a gift to the School in my honor. Julie Geddes and Molly Riley advised me of the fund after our Final Exercises on June 5. After careful thought, I asked that this gift be added to the memorial fund which is used for the beautification of the grounds, in order that the major landscaping project in our inner courtyard might be completed. Thanks to this gift and those which have been made in memory of deceased loved ones of the TLS "family," the courtyard will be a lovely, special area for all to enjoy. Please drop by to see it when you can.

The weeks since the close of the 1980-81 school year have been spent in clearing out twenty years of accumulated papers which are not needed by Dick Schwab. I know you can appreciate the many sentimental memories that such an experience can arouse. I wish it were possible for me to visit with each of you who were related to the materials I have enjoyed perusing again. These files provide a rich source for interesting research into how an independent school gets started and what phases it passes through as it serves those entrusted to its care.

I wish to thank Mrs. Josephine A. Abercrombie for her wisdom and generous support in establishing TLS and giving me the opportunity to play a role in having her dreams for it fulfilled. Mrs. Abercrombie has always chosen to maintain a low profile when it comes to receiving public recognition for the vital role she played in making the school what it is. All of us owe her a debt of gratitude, for without her commitment and guidance, TLS would never have become a reality.

The main objective Mrs. Abercrombie had in establishing TLS was that of providing the strongest possible academic environment for the families of Central Kentucky. Testimony of the realization of this goal is borne out in a careful analysis of the test results over the years. I thought that our first parents and students would be interested in seeing the academic progress which has been made since the first achievement tests were given in December 1960, so I am providing in this Bulletin the medians reported by Educational Records Bureau for our first test results. (December 12, 1960) and those reported by ERB for the past three academic years.

When one considers the I.Q. level of students enrolled in TLS, the percentile level expected on achievement test scores should be in the vicinity of 60 - 70. When our medians are above this, I consider than as evidence of the strong job being done by our dedicated teachers and students. When medians fall below this level, I have always looked for elements which need to be altered in our program.

Many of the changes we have made in our academic program in the past have been initiated by my analysis of the ERB computer print-outs covering our achievement testing program. Other changes have been effected as a result of feedback I have received from our graduates. Two such cases in point are the initiation of three sections in the Middle School mathematics program and the scheduling of seven or more class periods a week in English.

The test profile guided us in the math sectioning, and alumni feedback guided us into increasing the number of English classes per week in order to allow for more opportunities to develop writing skills. We found that it was not possible to cover the necessary elements of the English program with only five class periods of instruction time during the week. Alumni and parents need to realize the importance of their feedback and continue to share it with the school.

In closing out my last written comments to TLS "family" I want to thank all who have helped me as I have worked to enable our school to attain many of the goals our founder, Mrs. Abercrombie, envisioned. As Dick Schwab assumes his duties I know you will continue to support the headmaster of TLS as he carries out his important role, for it is often a lonely one.

Carolyn and I ask God's blessing on each of you and wish you every success and happiness.

Denton S. Pritchett, Jr.

NOTE: I. S.%ile stands for independent school percentile (The percent of students who scored lower than this score)

To aid parents in interpreting these results I wish to point out that the percentile represents the percent of the independent school students whose scores are lower than that attained by the group. Thus, a score at the sixty-sixth percentile level is above the level of two-thirds of those tested and places the individual in the top third of the tested group. Please note that a percentile score must not be confused with a report card grade which is expressed as a percent.

ALUMNI GIFT USED IN COURTYARD

The Lexington School Class of 1980 initiated an Alumni Fund in honor of *Mr. Pritchett.* This generous gift from TLS Alumni enabled the school to proceed with plans to landscape the courtyard. Memorials to deceased friends of the school and gifts from the Classes of 1980 and 1981 also were used to finance the project.

Taxus and boxwood hedges outline three sides of the court. Iris and peonies will bloom next spring to add their beauty. Colorful flowering trees stand at each corner of the rectangular area. A ground cover is to be added this fall.

The work was overseen by *Mrs. Lindsey Ingram,* TLS Board member and mother of four TLS students.

RECEPTION FOR THE PRITCHETTS

Sunny skies prevailed on June 7 when a reception for *Mr. Norton G. Pritchett, Jr.* was held at *Mansfield,* the home of *Dr. and Mrs. Jim Gay.* A host of friends attended the lovely garden party to show appreciation for Mr. Pritchett and his family.
